# What's our more general user story?

1. A user comes to our website
2. We need to send them something to look at.

# A user comes to our website

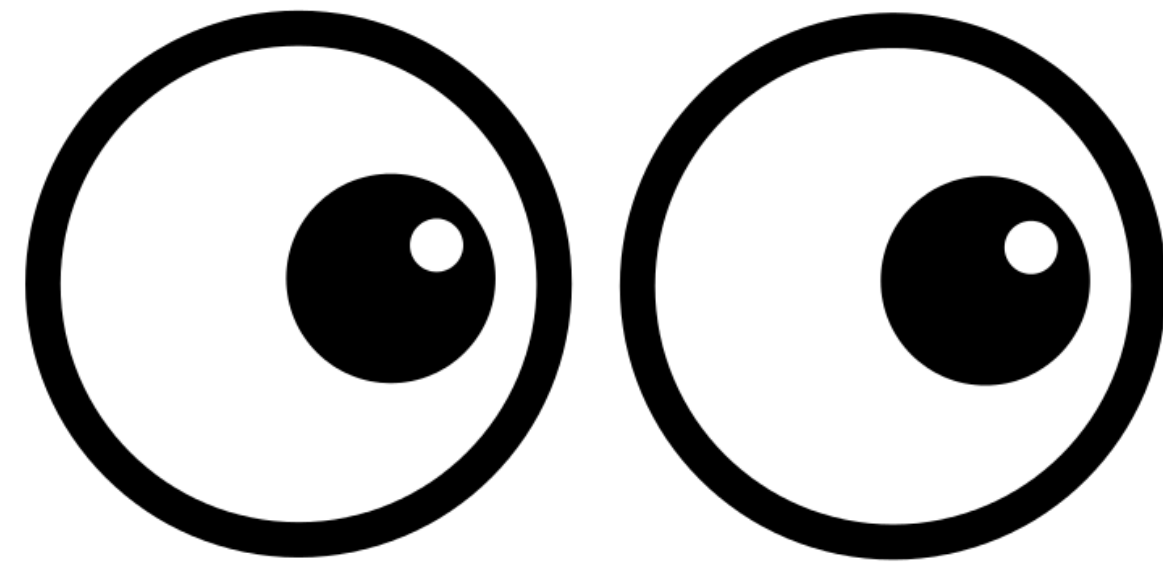

I. They need three things

1. HTML

2. Javascript

3. CSS

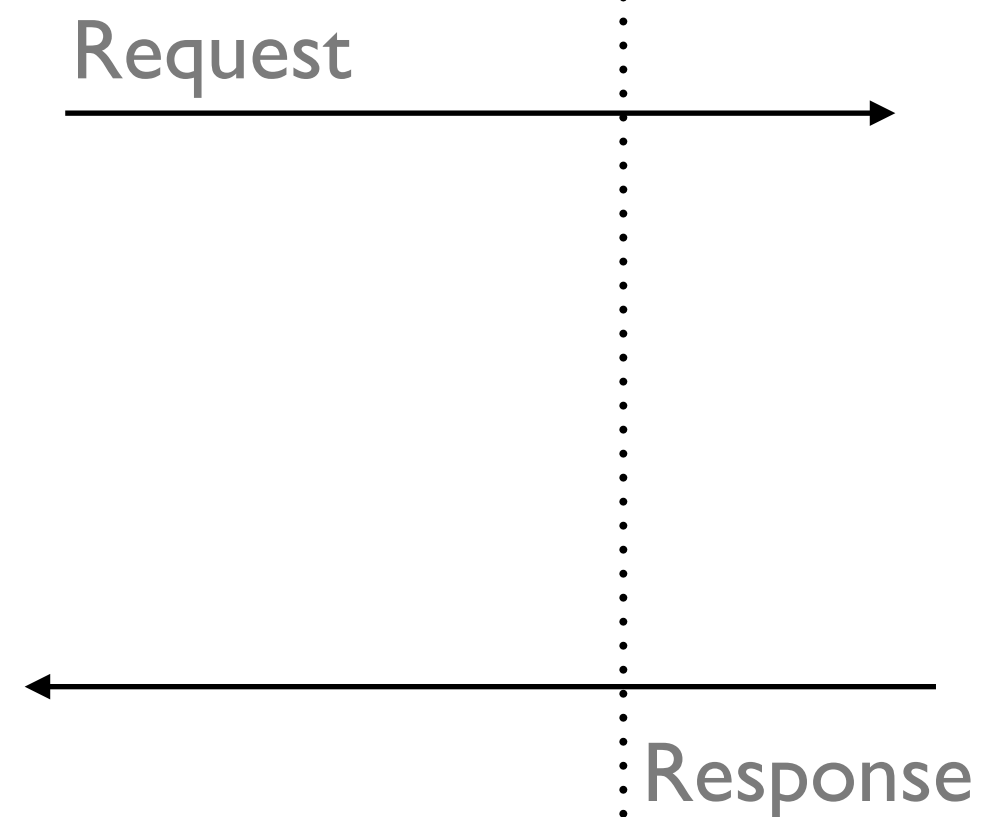

We look at a webpage

# Browser Side

But where did we get  
this website from?

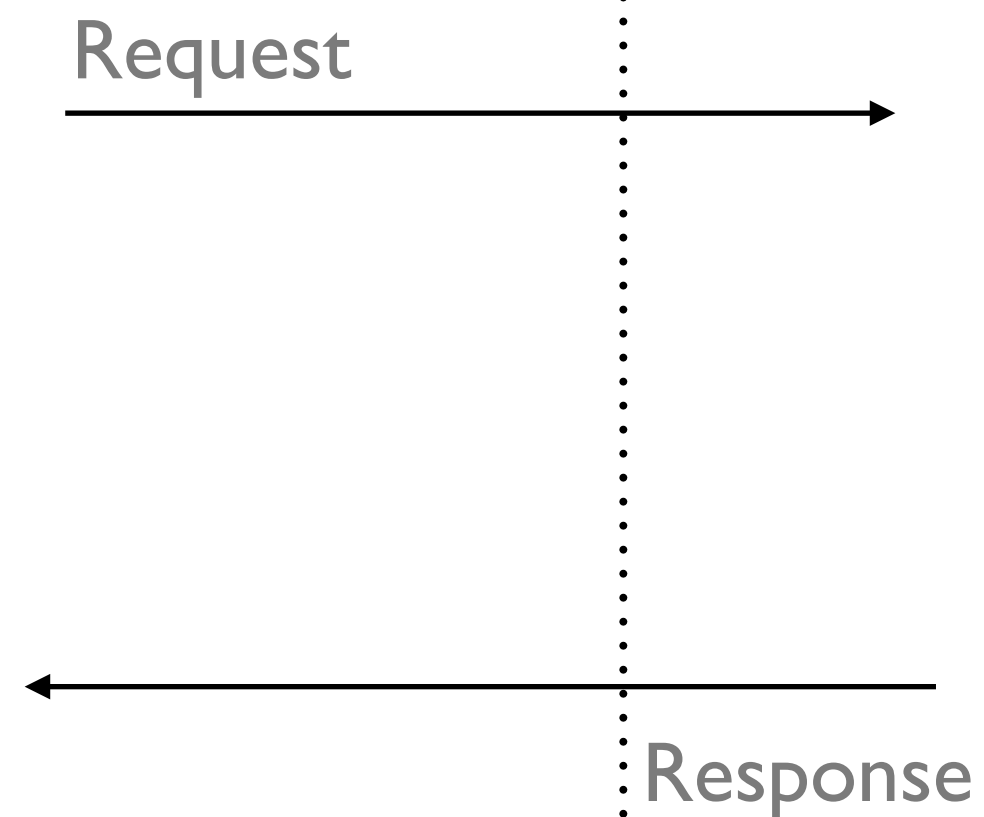

# Server Side

# Browser Side

How was node able to  
receive different kinds  
of requests?

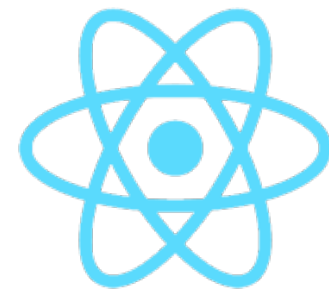

# Server Side

## Browser Side

Redux

React

HTML

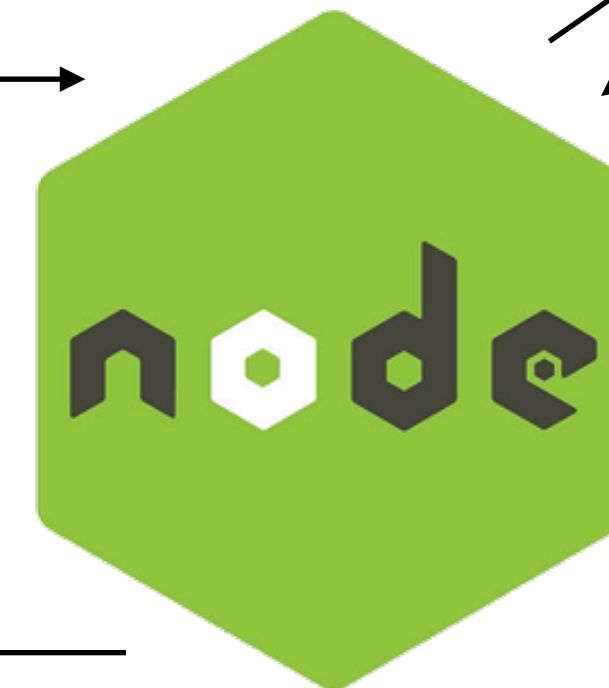

JavaScript

CSS

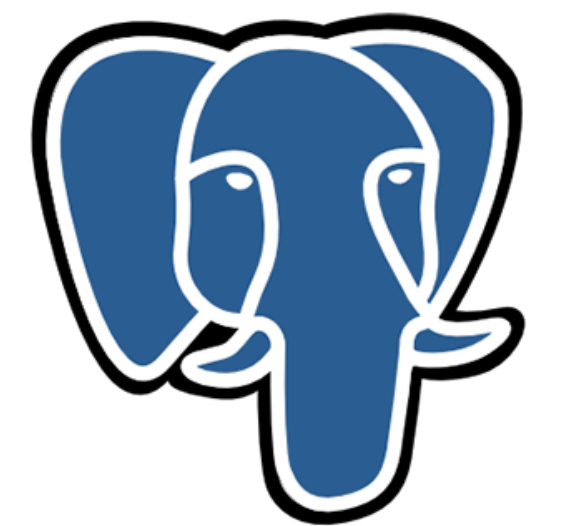

## Server Side

express

pg

PostgreSQL

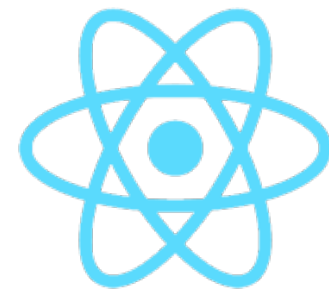

Request

Response

## Browser Side
